

N/A presents:

# High Flying Around Mountains with Kenny Meines

Kenny has accumulated 17,000 hours of total time. The majority of that time has been operating heavily loaded spray planes in the hills of the Palouse in Pullman Washington. Kenny is very close to all the really great back country airstrips in Idaho and has spent many hours mountain flying. He is also an aerobatic pilot, test pilot and owned his own floatplane part 135 operation. He is going speak with us about the challenges of flying in the mountains and taking off and landing at high altitude airstrips. The Do's, the Don'ts, and all the What If's. He is going to go through the POH and beyond sharing his many real life flying experiences in the mountains.

**Directions:** Meeting room is the main maintenance hangar at Aviation Facilities, Inc (AFI), which is the building west of the main terminal building at the airport. Prior to attending a safety seminar, please review and abide by current CDC, State and Local health guidelines

### **A message from the National FAASTeam Manager**
